Welcome

The first step in the adoption process is to find a dog who might be a good match for your family and complete a **NON-BINDING** application either online or at an adoption event. If you see a dog listed on Petfinder or our website, we encourage you to apply online as we always make it a priority to bring the dogs to events who have interest in them.

Once your application is received, it will be promptly reviewed and you will be contacted within 48 hours. The next step is to visit with the dog at an adoption event. Please bring a hard copy of your completed application with you to the event. If you decide to pursue your interest in a particular dog after meeting him/her/them, you will be interviewed at the event. Unless prior arrangements are made, it is important for all family members to be present.

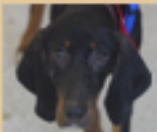

After the interview process, home visits are done for selected applicants. The process generally takes about a week from start to finish. Please note: Applications are not approved on a first come first serve basis; rather, the home that seems to be the best fit for the dog is chosen.
