GOLDEN GOPHER VOLLEYBALL CAMPS

Golden Gopher volleyball camps are the collaborative effort of top coaches, current collegiate players and trainers to provide a nourishing environment for developing volleyball athletes to **LEARN, REFINE** and **IMPLEMENT** the techniques, skills and strategies of today's modern game.

Clear, uniform instruction from coaches that explain the "how to" and more importantly the "Why" to any technical or strategic focus in any particular session coupled with carefully designed drills and competitive play can be expected from each session.

Campers should expect a fun learning environment, challenging each player to conclude camp a better volleyball athlete.

The simple concept of **Learning** and **Applying** will always be at the core of what we do in camp.
